

Sea of joy is everywhere,
Ultimately summer holidays are here.
High are the spirits with no tension of school,
Oh! It's great we have to follow no rules.
Playing with friends is lots of fun,
Homework is little that can be easily done.
Merrily moments like this are rare,
Such holidays come only once a year.

It's time for loads of ice cream, candies and cool pool; it's time to bond with relatives and cousins. Undoubtedly, it's the time to relax and travel but my dear children, summer vacation can also be a time for learning with lots of activities and fun. It's the perfect time to enhance your speaking skills and vocabulary by conversing in English with your family, relatives and friends. Reading is essential for those who seek to rise above the ordinary. Spend your quality time reading purposeful books appropriate to your age. Divide your time well between completing your Holidays homework, study hours and enjoying the summer break. Do your Holidays homework diligently and carefully. Happy Holidays!
