

SANT NIRANKARI PUBLIC SCHOOL
NIRANKARI COLONY
CLASS 3
HOLIDAY HOMEWORK (2024-25)

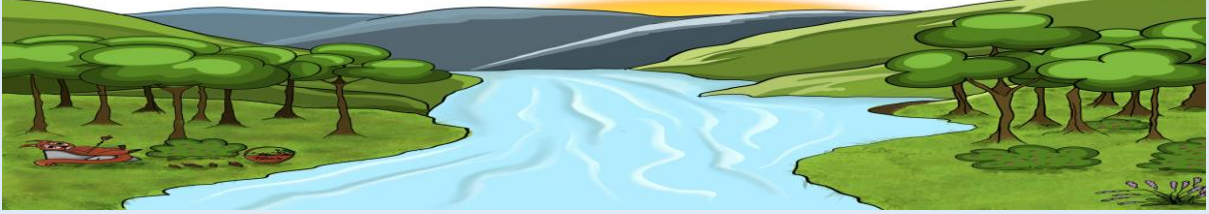

*Water, water, we love water.
It's so precious, we must not waste it.
We drink water, we wash in water,
We need water every day.
Water falls from the sky as rain.
It fills the rivers and lakes.
It helps the plants and trees to grow,
And it gives us life.
So let's all save water,
And use it wisely.
Let's turn off the tap when we're finished,
And take short showers.
Water is a precious gift,
We must cherish it.
Let's all do our part to save water,
For today and for tomorrow.*

Dear Students, here are some important points for you:-

- ❖ Summer vacation is the perfect time to enhance your speaking skills and vocabulary by conversing in English with your family and siblings.
- ❖ Holiday Homework is a part of portfolio and will be assessed on the basis of creativity and efforts of the students.
- ❖ Revise all the work done in the month of April and May for the upcoming Periodic Test – 1 (July).

ENGLISH

Rivers are the main source of drinking water but human beings keep on polluting them mindlessly by throwing garbage, chemicals etc. in them. Since water is precious for living beings, we need to save each and every drop of it. Save blue, Live green.

- Write a poem on the topic 'River'. Find out and write the different types of 'nouns' (Common Noun, Proper Noun and Collective Noun) which have been used in the poem that you have written. Do this work on an A-4 size sheet.

हिंदी

- A4 साइज शीट पर चित्र सहित मूल्यवान पानी पर एक सुन्दर स्लोगन लिखिये।

Maths

Q1. How much water is used by you in a week? Make a daily schedule on consumption of water for different activities.

Cases of water use	Consumption of water/household litre/day
Drinking and cooking	12.5
Utensil cleaning	11.6
Bathing	10.3
Cloth washing	17
House cleaning & gardening	7.1
Toilet & Others	9.7
Total	68.2

Q2. Make a collage of pictures of different containers which hold different amount of water.

EVS

Water is a precious and natural resource on the planet earth. It is found all around us. Nearly two-third of the Earth's surface is filled with water. It is found in different forms in our environment. The three main sources of water are: Rainwater, Groundwater and Surface water. This include water bodies like wells, springs, river, lake, ponds.

- Make a flip card showing different Sources of Water.

Reference Video: - <https://youtu.be/7-0WrsvfuV8?feature=shared>

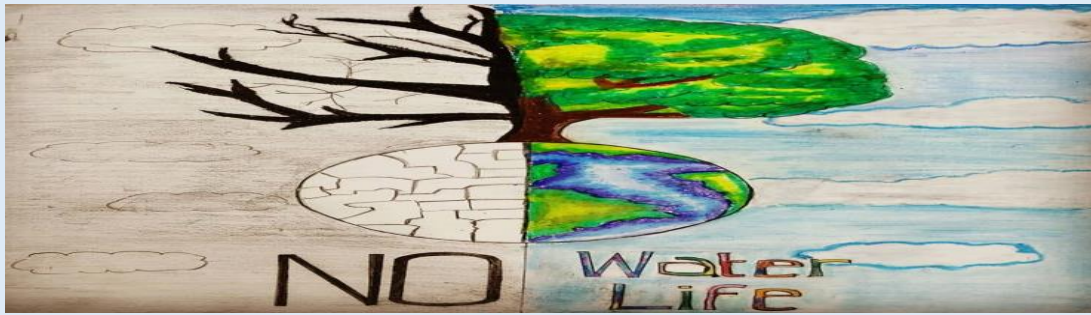

- Conservation practices that you can follow in the summer holidays:
 1. Turn off the taps while brushing teeth.
 2. Take a bucket bath.
 3. Don't play with water.
 4. Be a leak detective.
 5. Don't throw out old water, use it to water plants.
 6. Use rainwater for watering plants.
 7. Remember that you are a water saver.

COMPUTER

Water is the most valuable resource. Life cannot exist without water. So, it's our responsibility to conserve it.

- Make a creative poster in MS Paint on the topic "Save Water, Save Life" and bring the print out.

DRAWING

- Make a beautiful batch on precious water.
